Parameters of Excellence: India's Top 10 Private Universities

To compile the EW India University Rankings 2015, Cfore field researchers interviewed 2,567 faculty, 1,835 final year students and 1,287 industry managers countrywide, asking them to rate universities on seven parameters, viz, competence of faculty, faculty welfare and development, research and innovation, pedagogic systems and processes, industry interface, placements record, and infrastructure and facilities. Further, the informed interviewees were also asked to assign weightage to each parameter. The scores awarded by respondents under each parameter were totaled for the purpose of final ratings.

The 'research and innovation' parameter was assigned highest weightage (300) indicating that the respondents believe that the ability of faculty to engage in meaningful research and development including publication of papers in reputed international journals, is the most important criterion for assessing the educational capabilities of universities. Parameter rankings which highlight the prime strengths of highly ranked institutions are useful because they enable students to select institutions whose priorities dovetail with their own.

The national rankings of Top 10 private universities under all seven parameters, are set out below.
